Implantation of a third permanent tooth in a child with hyperparathyroidism. The loss of a permanent tooth and multiple dental abscesses in a 7-year-old girl with hyperparathyroidism, normal birth history, and a highly atypical appearance, has prompted this report. A third permanent tooth was implanted surgically, and the histopathologic study showed the development of normal dental tissues. The diagnosis of idiopathic hyperparathyroidism was made only after 4 months. Again, some of these devices are built for a specific purpose, but what if you can use them for multiple purposes? It was like we were creating a whole new category of devices. What does the future hold? There are a lot of things we can't predict, but I don't think it will be long before everyone has a wallet on their wrist. That will open the door for a whole new category of applications. I think there will be a big question for companies about the applications. We have to remember that for many companies, they have a huge advantage. Apple is going to make \$4 billion from their app store. Google gets \$10 billion per quarter. Amazon is going to be spending an absolute ton of money on smart speakers. Those people have to develop their own app store. That's an opportunity for a lot of people. I think we'll see these smart speakers and the interactions between them really grow. The car is going to be another really interesting place. We'll start to see a lot more self-driving cars. That's going to be a whole new world of ways for the devices to interact. The question will be whether there are devices that can connect to a vehicle. Maybe a smartphone. How will it work, and will it take off? There are lots of interesting things for the long term. An earlier version of this article was published on Dec. 3, 2015. Here's why you'll want to buy into this Google Smartwatch Show HN: Salesclerk - Where you get to be the boss - mvmanoj I made a quick-n-dirty single-page web app to get feedback from people on the idea.
